

Action Item #6- Grand Junction & Regional Detention Engineering & Permitting

The Westfield Public Works Department (WPWD) is recommending the Board of Public Works and Safety consider approving a contract for services to complete permitting for regional detention and construction of Grand Junction to 50% engineering which is necessary for permitting of Grand Junction Park.

Bernardin, Lochmueller and Associates, Inc. (BLA) currently has a contract to design regional detention for downtown Westfield and the planned Grand Junction Park. WPWD has worked to develop a regional detention concept that is acceptable to all the federal and state regulating agencies. The current contract with BLA does not include permitting or engineering for Grand Junction.

BLA has proposed a contract of \$222,996.00 to complete the work described above. WPWD has worked with BLA to make sure we are only contracting for what is needed at this time to complete permitting process.

Therefore, it is the recommendation of the Public Works Department for the Board to propose a motion to approve the Contract for Professional Services BLA in the amount of \$222,996.00 and authorize the Director of the Public Works Department to execute the agreement.
