

June 19, 2013

Dear Commission Members,

Dan and I are writing in support of the "Towers of Westfield". We have seen the presentations and think it is vital that Westfield identifies itself- separate from the other cities of Hamilton County. We applaud the work you have done for Westfield and think you will always choose the best for this community and encourage you to continue your efforts. We think the "Grand" wording should be continued in these projects as well.

In operating the airport, we understand that it is the "gateway" to our communities –the first and last impression and we think the towers will be a good gateway for Westfield.

Thank you again for your efforts,

Sincerely,

Dan and Andi Montgomery
