**Subject:** Chatham Hills

As I can not attend the meetings I have one concern/question. The fourth hole on the per 3 course points directly onto 199th street. What is being done to prevent pot shots (or misses) directly onto the road and housing beyond?

Also the entire Colonial Hills Estates + surface drains (through an undersized culvert) North across 199th. Colonial Hills Estates also has a drainage pipe running North, West of Tomlinson to the county drainage pipe.
