Subject: Kroger Curb Side Pick Up
Attachments: Kroger Expansion.pdf; ATT00001.htm

We received notice about Kroger's plans to add a curb site pick up service at their store at 161st and Springmill. My wife and I own a home at [69 Markleville Lane](#) that lies essentially due east of the proposed improvements. Our only concern with this proposal would be any outdoor lighting that would be added that may become a nuisance to the homes that face this new addition. Our suggestion would be for Kroger to plant additional evergreens on the berm that separates the Kroger property and the Countryside neighborhood to mitigate any concerns about the lighting (see attached).
