¹ The property tax cap is calculated separately for each class of property owned by the taxpayer. It is possible, therefore, that you may receive credit for the tax cap on line 4b even if your net property tax bill is lower than this amount.

² Charges not subject to the property tax cap include property tax levies approved by voters through referendum. In Lake County and St. Joseph County, this line also reflects debt obligations incurred prior to the creation of the property tax caps. When added to the base property tax cap amount for your property, this creates the effective tax cap rate. For more information, see the back of this document.

³ If any circumstances have changed that would make you ineligible for a deduction that you have been allowed in Table 5 on this tax bill, you must notify the county auditor. If such a change in circumstances has occurred and you have not notified the county auditor, the deduction will be disallowed and you will be liable for taxes and penalties on the amount deducted.

SPECIAL MESSAGE TO PROPERTY OWNER

Property taxes are constitutionally capped at 1% of property values for homesteads (owner-occupied), 2% for other residential property and farmland, and 3% for all other property. Please note that government unit annual budget notices are now available online at www.budgetnotices.in.gov.

¹ The property tax cap is calculated separately for each class of property owned by the taxpayer. It is possible, therefore, that you may receive credit for the tax cap on line 4b even if your net property tax bill is lower than this amount.

² Charges not subject to the property tax cap include property tax levies approved by voters through referendum. In Lake County and St. Joseph County, this line also reflects debt obligations incurred prior to the creation of the property tax caps. When added to the base property tax cap amount for your property, this creates the effective tax cap rate. For more information, see the back of this document.

³ If any circumstances have changed that would make you ineligible for a deduction that you have been allowed in Table 5 on this tax bill, you must notify the county auditor. If such a change in circumstances has occurred and you have not notified the county auditor, the deduction will be disallowed and you will be liable for taxes and penalties on the amount deducted.

¹ The property tax cap is calculated separately for each class of property owned by the taxpayer. It is possible, therefore, that you may receive credit for the tax cap on line 4b even if your net property tax bill is lower than this amount.

² Charges not subject to the property tax cap include property tax levies approved by voters through referendum. In Lake County and St. Joseph County, this line also reflects debt obligations incurred prior to the creation of the property tax caps. When added to the base property tax cap amount for your property, this creates the effective tax cap rate. For more information, see the back of this document.

³ If any circumstances have changed that would make you ineligible for a deduction that you have been allowed in Table 5 on this tax bill, you must notify the county auditor. If such a change in circumstances has occurred and you have not notified the county auditor, the deduction will be disallowed and you will be liable for taxes and penalties on the amount deducted.

¹ The property tax cap is calculated separately for each class of property owned by the taxpayer. It is possible, therefore, that you may receive credit for the tax cap on the 4th even if your net property tax bill is lower than this amount.

² Charges not subject to the property tax cap include property tax levies approved by voters through referendum. In Lake County and St. Joseph County, this line also reflects debt obligations incurred prior to the creation of the property tax caps. When added to the base property tax cap amount for your property, this creates the effective tax cap rate. For more information, see the back of this document.

³ If any circumstances have changed that would make you ineligible for a deduction that you have been allowed in Table 5 on this tax bill, you must notify the county auditor. If such a change in circumstances has occurred and you have not notified the county auditor, the deduction will be disallowed and you will be liable for taxes and penalties on the amount deducted.

* The property tax cap is calculated separately for each class of property owned by the taxpayer. It is possible, therefore, that you may receive a credit for the tax cap on the 4th even if your net property tax bill is lower than this amount.
 † Changes not subject to the property tax cap include property tax levies approved by voters through referendum. In Lake County and St. Joseph County, this line also reflects debt obligations incurred prior to the creation of the property tax caps. When added to the base property tax cap amount for your property, this creates the effective tax cap rate. For more information, see the back of this document.
 ‡ If any circumstances have changed that would make you ineligible for a deduction that you have been allowed in Table 5 on this tax bill, you must notify the county auditor. If such a change to circumstances has occurred and you have not notified the county auditor, the deduction will be disallowed and you will be liable for taxes and penalties on the amount deducted.

¹The property tax cap is calculated separately for each class of property owned by the taxpayer. It is possible, therefore, that you may receive credit for the tax cap on line 4b even if your net property tax bill is lower than this amount.
²Charges not subject to the property tax cap include property tax levies approved by voters through referendum. In Lake County and St. Joseph County, this line also reflects debt obligations incurred prior to the creation of the property tax caps. When added to the base property tax cap amount for your property, this creates the effective tax cap rate. For more information, see the back of this document.
³If any circumstances have changed that would make you ineligible for a deduction that you have been allowed in Table 5 on this tax bill, you must notify the county auditor. If such a change in circumstances has occurred and you have not notified the county auditor, the deduction will be disallowed and you will be liable for taxes and penalties on the amount deducted.

* The property tax cap is calculated separately for each class of property owned by the taxpayer. It is possible, therefore, that you may receive credit for the tax cap on less than even if your net property tax bill is lower than this amount.
 * Charges not subject to the property tax cap include property tax levies approved by voters through referendum. In Lake County and St. Joseph County, this line also reflects debt obligations incurred prior to the creation of the property tax cap. When added to the net property tax cap amount for your property, this creates the effective tax cap rate. For more information, see the back of this document.
 * If any circumstances have changed that would make you ineligible for a deduction that you have been allowed in Table 5 on this tax bill, you must notify the county auditor. If such a change in circumstances has occurred and you have not notified the county auditor, the deduction will be disallowed and you will be liable for taxes and penalties on the amount deducted.

¹ The property tax cap is calculated separately for each class of property owned by the taxpayer. It is possible, therefore, that you may receive credit for the tax cap on line 4b even if your net property tax bill is lower than this amount.

² Charges not subject to the property tax cap include property tax levies approved by voters through referendum in Lake County and St. Joseph County, IN. Line also reflects debt obligations incurred prior to the creation of the property tax cap. When added to the base property tax cap amount for your property, this creates the effective tax cap rate. For more information, see the back of this document.

³ If any circumstances have changed that would make you ineligible for a deduction that you have been allowed in Table 5 on this tax bill, you must notify the county auditor. If such a change in circumstances has occurred and you have not notified the county auditor, the deduction will be disallowed and you will be liable for taxes and penalties on the amount deducted.

¹ The property tax cap is calculated separately for each class of property owned by the taxpayer. It is possible, therefore, that you may receive credit for the tax cap on line 4b even if your net property tax bill is lower than this amount.

² Charges not subject to the property tax cap include property tax levies approved by voters through referendum. In Lake County and St. Joseph County, this line also reflects debt obligations incurred prior to the creation of the property tax cap. When added to the base property tax cap amount for your property, this creates the effective tax cap rate. For more information, see the back of this document.

³ If any circumstances have changed that would make you ineligible for a deduction that you have been allowed in Table 5 on this tax bill, you must notify the county auditor. If such a change in circumstances has occurred and you have not notified the county auditor, the deduction will be disallowed and you will be liable for taxes and penalties on the amount deducted.

Deb:

Here's how I think it breaks down:

- \$16,909.85 - James Wood/Sandra Wood (141.51ac x \$119.50/ac)
 - 2015 payment - $\$17,717.86/110 = 161.07ac$
 - Note: 2016 payment based on 161.07ac – 19.57ac purchased for arena = 141.51ac
- \$5,855.50 - Old National/Wilfong (49ac x \$119.50/ac)
 - 2015 payment - $\$5,390.00/110 = 49ac$
- 7,618.60 - Sandee Enterprises (63.754 x \$119.50/ac)
 - 2015 payment - $\$7,012.94/110 = 63.754ac$
- \$5,399.25 - Patsy Kunz (45.182ac x \$119.50/ac)
 - 2015 payment - $\$4,970.02/110 = 45.182ac$

Please check my math....

Got it... I don't have the acreages in front of me, so we can back in to the numbers;

- We paid \$110/ac in May and \$110/ac in Nov
- Let's take the amount you sent in May of last year and divide it by \$110
- That should give us the acreage

Than we would pay \$119.5/ac in May, \$119.50 in Nov....

Send me your acreage calculations before we cut the checks....
