

Department of Information Technology Technology Monthly Report

August 2007

Mike Fisher
Director of Information Technology
mfisher@Westfield.IN.gov

Value Statement

The Department of Information Technology serves as the voice for the technology and communication needs of the Town of Westfield, develops methodology for investment prioritization and implements standards to enable greater coordination of information technology across Town departments and local, state and federal government entities.

Vision Statement

The Department of Information Technology creates a corporate culture whereby investments and information sharing are maximized through collaboration and standardized processes across the enterprise resulting in enhanced service to Westfield constituents. Additionally, we strive to align project initiatives with business objectives and forge paths that drive business growth and economic development in Westfield.

Mission Statement

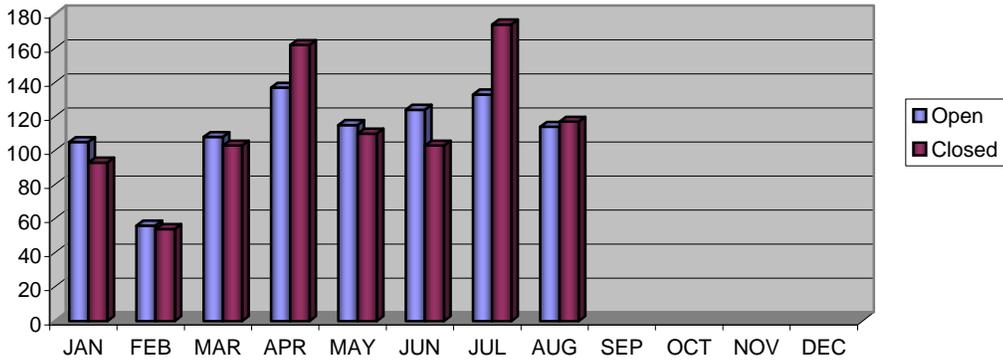

To solve problems using technology responsibly to enhance processes while providing outstanding customer service and maintaining a secure & reliable infrastructure in a cost efficient manner.

Slogan Statement

“Making IT Possible”
