

## **Quote Approval – City VOIP Quote Approval and Contract**

The Westfield Public Works Department is recommending the following quote for consideration. This quote is for the purchase and installation of a citywide Voice Over Internet Protocol (VOIP) phone network system.

This new VOIP Phone Network System will be initiated in the new City Services Expansion Building and phased in over time at the other city building facilities.

This project is a change in technology direction for the City of Westfield and the change will bring about productivity enhancements for the City as a whole. This Project is also part of the larger picture to develop a Competitive Local Exchange Carrier (CLEC) that will bring future partnerships and new revenue opportunities in the near future.

The City of Westfield Public Works Department acquired three (3) quotes for VOIP phones systems. The total amount in the quoted agreement with the preferred vendor, First Mile, is \$72,062.10 the first year.

The Westfield Public Works Department recommends that the Board of Public Works and Safety authorize the Westfield Public Works Department to purchase the quoted Voice Over Internet Protocol phone network system for an amount not to exceed \$74,999. Additionally, to authorize the President of the Board of Public Works to execute the contractual agreement with First Mile at a later date once the agreement terms have been agreed upon between City of Westfield and First Mile.
