

Action Item # 8 – Public Works Consent to Assignment - Skytel

The Public Works Department is seeking approval to consider the request by SkyTel Consent to Assignment.

On March 30, 2008, Bell Industries entered into an Asset Purchasing Agreement with Velocita Wireless LLC, whereby Velocita will acquire all of the assets utilized in SkyTel's wireless messaging business.

It is the recommendation of the Public Works Department for the Board to propose a motion to approve the SkyTel Consent to Assignment and authorize the Director of the Public Works Department to execute the assignment document.
