RE: Irrigation Proposals for Asa Bales Park and Quaker Park

Dear Board Members:

As the Park Department continues to strive to improve the planted areas in all of our parks we have determined in order for this effort to be successful we need to be able to maintain these areas by watering. Please find attached three quotes for your consideration. These quotes are for two Parks; Asa Bales and Quaker.

In Asa Bales Park this includes all the area north of the Skate Park and west of the trail. At Quaker Park it includes everything in the park; *except* the open space east of the shelters to Oak Ridge Road. I will have the plans with me at the meeting for your review if necessary.

The quotes are all using the same equipment and placement. The low quote is from Landscape Design of Indianapolis, Inc. at \$40,430. With your permission I would like to except this quote and have the project begin immediately. Funding for this project will come from Park Impact Fees.
