

**Policy: ST-04-01**  
**Policy Title: Snow Removal Policy**  
**Policy Purpose: Set guidelines for the snow removal**  
**Implementation Date: 03/02/2004**  
**Revision Date: 01/01/2007**

## **TOWN OF WESTFIELD**

### **PUBLIC WORKS DEPARTMENT**

### **SNOW REMOVAL POLICY**

The snow removal policy consists of an effective way to clear main roads and subdivisions. This policy will set forth guideline of when to salt, when to plow main roads, and when to do a total push. The snow removal policy will assist associates in becoming familiar with the corporate limits, street, and subdivision locations within the jurisdiction of the Town of Westfield.

**Section 1: Salt Application-** Salt is mainly used for bridges and hills. If on Street Call and the person is called out by dispatch, he/or she is to salt hills, bridges, and main intersections. Also, individuals on Street Call may be called out to salt an exact location. Individuals on Street Call may anticipate be called out for salt duty by either supervision or by emergency dispatch personnel.

**Section 2: Primary and Secondary Road Plowing-** A snowfall event of two (2) inches or more will require that all main roads be plowed to help move traffic and emergency vehicles. Salt applications may also be used to assist in clearing the main roads. A list of the primary roads to be plowed is listed below in Section 6. Also, secondary roads shall be maintained once the primary roads are adequately cleaned up. A list of the secondary roads to be plowed is listed below in Section 7.

**Section 3: Requirement for a Total Push-** A snowfall event of three (3) inches or more will require a total push. A total push will require that all public roads within the jurisdiction of the Town of Westfield be cleared of snow. Snow removal clearing shall be conducted in the following sequence: primary roads, secondary roads, then road within subdivisions. Dump trucks will concentrate on primary roads, while pick-up trucks will work secondary roads and roads within subdivisions. Personnel will be assigned to a designated area to plow. The town will be divided into snow removal quadrants (Exhibit A “Snow Removal Map Zones”). Personnel will be responsible for the quadrant that they are assigned to. Quadrants will be alternated each time a total push occurs, thus alleviating any concerns that a certain area of the Town is serviced last. Also, during a total push all cul-de-sacs will be plowed. However, cul-de-sacs shall be the last areas to be thoroughly cleaned during a total push. Therefore, one pass will be made through cul-de-sacs while first clearing a subdivision. After the subdivision’s main roads have been cleared, personnel will attend to clearing the cul-de-sacs completely. While plowing cul-de-sacs, snow shall not be piled up in front of mail boxes, and or fire-hydrants. However, it is the responsibility of each homeowner to remove snow from within 3’ of their mailbox.

## **Section 4: Frequently Asked Questions**

**Question-** When are you going to get to my street?

**Answer-** All secondary roads such as: Sycamore, Birch, and Weslea Dr. will be cleared as soon as the primary arteries have been cleared.

**Question-** When will our subdivision get plowed?

**Answer-** After the snow has stopped falling and the primary and secondary roads have been cleared, personnel will be dedicated to clearing side streets, alleys and roads within subdivisions.

**NOTE: The Public Works Department has divided the subdivisions into four (4) quadrants: NE, NW, SE and SW. We will alternate the quadrants so each one will have the opportunity to be first to get service.**

**(The quadrants are defined below in Exhibit A – Snow Removal Map Zones Map).**

**Question-** When will you salt our street?

**Answer-** Salt applications are administered after all the streets have been cleared of snow. Should a slick spot arise or go unattended, contact our Customer Service Office at 867-1116 and staff will be dispatched to salt the area of concern.

**Question-** Where do you purchase your salt?

**Answer-** The Town of Westfield Public Works Department has a contract with Cargill.

## **Section 5: Snow Removal Responsibility**

All roads under maintenance bonds or that have been dedicated to the Town will be maintained by the Town regarding snow removal. All other situations will require the developer and or owner to maintain (Performance Bonds).
