Dear members of the APC:

We at the Westfield Public Works Department want to give our approval and recommendation for the Freedom Trails Park plans submitted by the Westfield Parks and Recreation department. This master site plan shows exactly what the Parks Department has planned for the future development of this park. We understand due to budgeting reasons these improvements and additions will come in stages. Any questions or concerns may be answered by the WPWD Development Construction division and the Westfield Parks and Recreation Director.

Sincerely,
