Greetings Jessie, Petitioner & APC members,

I am very pleased to have a shooting range proposed in Westfield on the chosen site.

I am familiar with a range on the west coast that was completely sound proof and provided green space and/or parking above and was completely safe to all surroundings.

A stair below the store provided access to the underground shooting benches.

The targets were at the far end of tubes -actually underground concrete sewer pipes.

I believe it could be built at a considerable savings and could be very attractive.

The petitioner might want to consider such a plan,

Respectfully,

Mic Mead
