

# AWARD CATEGORIES

Each car can participate in either the Creative or Competitive categories. Trophies will be presented following the races on the main stage on Jersey Street.

## Creative

Creative cars are non-traditional race cars built with an imagination and a funky theme! These works of art race in their own bracket, including face-offs with creative entries only. Drivers are encouraged to wear a costume that compliments their car's theme!

## Competitive

The Competitive category includes traditional soapbox Derby cars with a twist. Design your car with an exciting theme or customize it specifically to your business! Races include face-offs with competitive entries only. Drivers are encouraged to wear a costume that compliments their car's theme!

## People's Choice

Win the crowd! Attendees can view race cars as they race along Union Street, as well as along Gasoline Alley. Votes are collected and tallied to determine the audience's top two favorites!
