

WESTFIELD FIRE DEPARTMENT

"Weaving the Traditions of our Past into the Realities of our Future."

Members of the BPW&S,

I am requesting approval to lease/purchase two vehicles and two specialty saws. These vehicles will be replacements for vehicles which are currently in use. The fire department has developed an obsolescence strategy to minimize costs of repairs and to maximize trade in values.

The life cycle of the Ford F250 is intended to be used as a staff vehicle for three years then moved to use as a utility vehicle in which one of its uses will be for snow removal. The life cycle for the Ford Interceptor will be use as a staff vehicle and then moved to use as a pool vehicle. The vehicles that are being replaced will be moved to use as pool vehicles and allow us to liquidate at least one of the current pool vehicles.

The two specialty saws are to replace current saws that need to be replaced due to normal wear and tear.

2015 Fire Department Equipment Lease

Vehicle Purchases

1. 2015 Ford F-250 XL Pick-up truck 4WD	\$29,376.00
2. 2015 Ford Police Interceptor Utility AWD	\$26,792.00
