It is not the intent to limit the architectural styles shown in the Character Exhibit, but to encourage diversity in architectural styles of Dwellings within the District. The Department shall determine whether a structure is consistent with the established benchmark and complies with the standards of this Ordinance. The Department’s determination may be appealed to the Plan Commission.

If the relocation of plantings results in planting congestion or is otherwise contrary to landscaping best management practices, then the Director or Plan Commission may approve a landscape plan with fewer plantings than otherwise required.

C. Shade and Evergreen trees shall be planted within the common area northwest of Lot 20 thru Lot 27 as generally shown on the Concept Plan. The minimum number of trees planted in this area shall be calculated at one (1) tree per fifteen (15) feet of lot width along the rear of Lot 20 thru Lot 27.

- 10.2 The Common Area Exhibit, attached hereto as **Exhibit E**, is hereby incorporated as a compilation of images designed to capture the intended amenities to be constructed in the District. Although the exhibits do not necessarily represent the final design, they do hereby establish a benchmark for the quality and appearance of amenities that are required to be constructed. The Department shall determine whether the amenities are consistent with the established benchmark and complies with the standards of this Ordinance. The Department's determination may be appealed to the Plan Commission.
