DITCH ROAD EXTENSION OPEN TO TRAFFIC

Westfield, IN- Today the city of Westfield officially opened the new extension for Ditch Rd with a ribbon cutting ceremony.

“The northwest quadrant of Westfield is growing at a rapid pace and the new section of Ditch Rd is necessary infrastructure to keep up with the growth in that area,” says Mayor Andy Cook. “The new roadway will now allow the city to close down Casey Rd, which has become unrepairable over the years.”

Ditch Rd connects to the new Casey Rd roundabout, which opened to traffic just a few weeks ago.

Cost for construction was approximately \$2.8 million. The extension adds a little more than 1.5 miles to Westfield’s road network. Casey Rd is closed to traffic indefinitely.
